

## Core Facility **S**tatistical **C**onsulting

The Core Facility Statistical Consulting is looking for candidates, **starting as soon as possible**, for the position of

### **Student assistant for statistics and administrative tasks**

Tasks:

- Statistical analysis and programming
- Preparation of graphics, texts and presentations
- Maintenance of webpages
- Assistance in general administrative work

Prerequisites:

- Good knowledge of statistics, at least descriptive statistics and testing theory; knowledge of statistical learning techniques is a plus
- At least basic knowledge of R programming
- Experience with MS Word and Powerpoint; experience with LaTeX is a plus

Work extent:

- 8-10 hours per week

We offer:

- Participation in interesting biostatistical projects
- Learning of/deepening knowledge in relevant topics
- If applicable, possibility to write a bachelor/master thesis
- Flexibility in working times and location
